

## Investment

Connexionz Limited is a New Zealand listed company. Our listing documents, latest announcements, historical price and trading volume information are found at [www.nzx.com](http://www.nzx.com) — put CNX into Stock Code box on that site.

If you are a habitual investor (as defined by the Securities Act) and would like to take your interest in Connexionz a stage further, please email your inquiry to [tony.kan@connexionz.co.nz](mailto:tony.kan@connexionz.co.nz)

## CONNEXIONZ ACQUIRES REMAINDER OF UK OPERATION

In January 2007, Connexionz acquired the remaining 50% shareholding in its UK joint venture Connexionz Investments Ltd (CIL). Connexionz now owns 100% of the UK operation.

CIL's shareholders accepted 1,875,000 CNX shares at a price of NZD 0.25 per share in return for their holding. Connexionz's Chairman Craig Boyce said, "Its in the best interests of both companies to be part of one global organisation."

ConnexionzUK has won a NZD 1.1m order to provide new in-bus computers for Reading Borough Council. The new computers will support multimedia applications on the buses and a new WiMAX communications network.

## Phil Wardell Loses His Battle

We were greatly saddened by the death of our colleague and friend Phil Wardell after a short illness in March 2007 at the age of 37.

Phil was part of the founding team at Connexionz established in 1999. He contributed greatly to the design of our real time passenger information system.

Phil was genuinely dedicated to our business and cared about the performance of the RTPI systems. Phil was a passionate debater in many aspects of the business; he always delivered his point with enthusiasm and integrity.

He shall be missed by all of us.

Some wishes from our customers:

*You and all the Connexionz family are in our thoughts. We so appreciated Phil's approach to life.*

Rebecca White on behalf of all the UVA folks

*Thanks so much for letting us know. He was well liked at Arlington County. I am so glad that I had the opportunity to meet such a good soul. He will be missed.*

Andrea Dawood, Arlington, Virginia

*I am greatly sadden as I know you are. We all have lost a very special person who will be missed. The world has lost an incredible person.*

Kelley MacKinnon, Arlington, Virginia

## Environment Canterbury and Connexionz Strengthen Partnership

In 2000, Environment Canterbury, the regional council in charge of public transport management in Christchurch, set a target to double the number of trips made on public transport from three to six per cent by 2011 in an endeavour to reduce traffic congestion and contain carbon dioxide emissions. At the time, Connexionz was contracted by the Christchurch City Council to assist Environment Canterbury to achieve these goals.

Connexionz continues to meet Environment Canterbury's growing needs. "We've been very happy with the Connexionz product and the commitment from their staff in maintaining and continually upgrading their product. Because of space limitations the Bus Exchange relies on dynamic bus allocation, which couldn't be achieved without Real Time Passenger Information. In the main Connexionz Real Time Passenger Information has proven extremely reliable and provides coverage throughout the greater Christchurch area where our

*"We've been very happy with the Connexionz product and the commitment from their staff in maintaining and continually upgrading their product. Our customers find that the provision of a Real Time Passenger Information takes away that niggling question of "have I missed my bus or is it still coming","*

*Wayne Holton-Jeffreys, **Manager Passenger Services, Environment Canterbury***

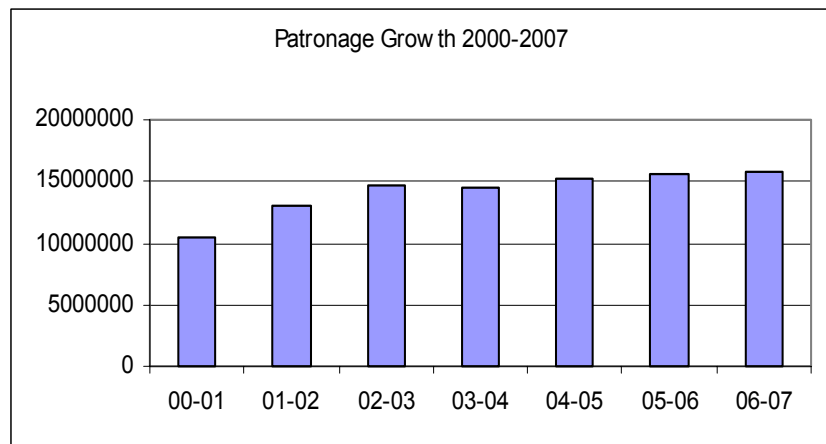

Connexionz installed a unique Real Time Passenger Information Solution in each of the city's 215 buses (we are now operating 304 buses); each bus location is reported 4 times per minute at the heart of the system. Connexionz software combines this historical information with data to calculate the estimated arrival time of the bus at each stop. The system displays arrival information for passengers, providing confidence, safety and security in the service. Transport planners are using the data to validate current bus services and help improve schedules and routes.

Last year the service was expanded to include Rangiora and Timaru. Seven years on, Connexionz

Metro services operate. Our customers find that the provision of a Real Time Passenger Information system takes away that niggling question of "have I missed my bus or is it still coming", according to Wayne Holton-Jeffreys, Manager of Passenger Services.

| Year  | Passengers |
